NextEra Energy Partners, LP announces date for release of fourth-quarter and full-year 2014 financial results

01/13/2015

JUNO BEACH, Fla., Jan. 13, 2015 /PRNewswire/ -- NextEra Energy Partners, LP (NYSE: NEP) today announced that it plans to report fourth-quarter and full-year 2014 financial results before the opening of the New York Stock Exchange on Tuesday, Jan. 27, 2015, in a news release to be posted on its website at www.NextEraEnergyPartners.com/Earnings. An advisory news release will be issued over PR Newswire the morning of Jan. 27, with a link to the financial results news release on NextEra Energy Partners' website. As previously announced, NextEra Energy Partners will make available its financial results only on its website.

Jim Robo, chairman and chief executive officer of NextEra Energy Partners, Moray Dewhurst, chief financial officer of NextEra Energy Partners, and other members of the senior management team will discuss the fourth-quarter and full-year 2014 financial results during an investor presentation to be webcast live, beginning at 9 a.m. ET on Jan. 27. Results for NextEra Energy, Inc. (NYSE: NEE) also will be discussed during the same investor presentation.

The listen-only webcast will be available on NextEra Energy Partners' website by accessing the following link: www.NextEraEnergyPartners.com/Earnings. The financial results news release and the slides accompanying the presentation may be downloaded at www.NextEraEnergyPartners.com/Earnings, beginning at 7:30 a.m. ET on the day of the webcast. A replay will be available by accessing the same link as listed above.

NextEra Energy Partners, LP

NextEra Energy Partners, LP (NYSE: NEP) is a growth-oriented limited partnership formed by NextEra Energy, Inc. (NYSE: NEE), a leading clean energy company, to own, operate and acquire contracted clean energy projects with stable, long-term cash flows. Headquartered in Juno Beach, Fla., NextEra Energy Partners owns interests in wind and solar projects in North America. These renewable energy projects are fully contracted, use industry-leading technology and are located in regions that are favorable for generating energy from the wind and sun.
